

Thank you for visiting our website and for your interest in the Professional Ambulance Association of Wisconsin (PAAW).

The Association's work is dedicated to healthy, sustainable ambulance and emergency medical service (EMS) delivery in Wisconsin. We bring together:

- Ambulance owners, administrators, chiefs, directors and managers.
- Government, healthcare leaders and others to discuss and act on important legislation and policies to improve the ambulance industry and its delivery.
- Those who provide medical care to the sick or injured.
- Organizations, associations and individuals who share our vision and interests.

Much of our effort is focused on ambulance operations and legislative issues that truly impact our ability as patient care leaders and providers. We all have a stake in this effort, so your participation is truly welcome.

PAAW operates financially on member dues and advertising revenue. We feel we offer great value to our members through timely information, participation, product purchase discounts and more. As an example, PAAW holds monthly member and legislative update conference calls, allowing our members, government relations lobbyist and healthcare consultants to interact, share information and discuss items that matter most. In addition, our members get real savings from our group purchasing contracts and partners that offer discounts on thousands of items and services.

PAAW produces every other year the Wisconsin Stars of Life program, which honors and recognizes individuals for their achievements, professionalism and commitment. Our two audio podcasts, EMS to the Point and EMS Live in Wisconsin, have received over 30,000 downloads since 2010.

Please take a few minutes to explore our website, get to know more about us and subscribe from our website to receive news and information updates by email. Most importantly, I invite you to review our new member information, or to attend the next board of directors meeting, either in-person or by telephone.

Again, I appreciate your consideration and interest in PAAW. Please feel to write with any questions, or how we can be of assistance to you. My email is president@paaw.us.

Sincerely,

Patrick Ryan
President
